

SOMERVELL COUNTY COMMISSIONERS COURT

**Reference: Rescheduling of the Monthly Agenda
for Monday 14, 2021**

Adjusted Schedule: from 9:30 a.m. to 2:00 p.m.

At approximately 9 a.m. on June 10th a construction crew severely damaged a fiber backhaul link on the Windstream Network. According to a response from Windstream on June 10, "The Windstream Crew is currently boring about a 3000 foot section of fiber", in order to make repairs. The crews worked through the night and completed repairs on the fiber at approximately 12:30 p.m. on June 11th. Although Somervell County is not a Windstream Customer, this impacted services through the county's CLEC. This outage impaired county wide network services that caused delays and rescheduling of some court hearings and services.
